

Curriculum Framework

Our school year runs from early January through mid November. Applications for the upcoming school year are due on October 1st, however you may make an early application to ensure placement as places are limited.

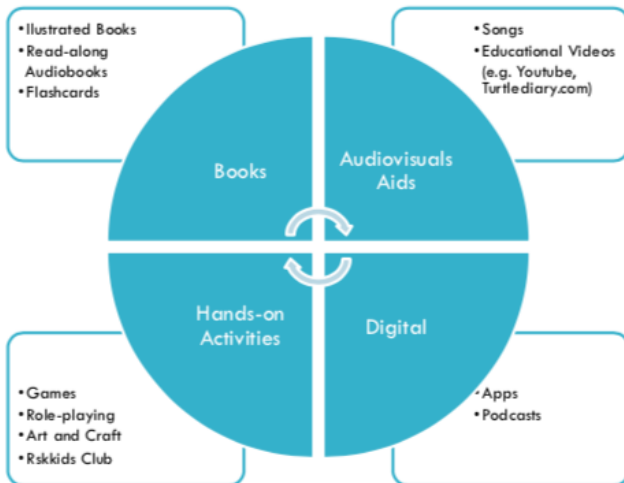

If you want to register, just simply fill up our online application form via rsk's website at rskkids.com

The management will then contact you to set an appointment.

Extended Services (Optional)

- Afternoon KindyCare Programme
- Enrichment Mentor Programme
- School Holiday KindyCare Programme

RSKKIDS

RSKKIDS CURRICULUM

RSKKIDS Curriculum provides a series of well planned activities on and off computer to exercise all the eight intelligences in your child. The activities are designed to discover and strengthen the stronger intelligence and awaken the dormant ones.

RSKKIDS MULTIMEDIA LEARNING

RSK Multimedia learning programme (e-Teaching) covers Phonics, B.Melayu, English, Mathematics & Science for our nursery, K1 and K2 students.

PHONIC READING PROGRAMME

A good phonics programme should enable the children to learn the skills meaningfully. RSK Reading Programme (Bahasa Malaysia & English) lets the children learn words in context. Besides phonetics words, children also learn side words (many of which are high frequency words) so that they can apply their skills in reading real books. The sense of achievement when children learn at young age will spur them to read even more!

ISLAMIC EDUCATION

Comprehensive Pendidikan Islam Programmes that includes Fardhu Ain, Iqra', Jawi & Hafazan.

CREATIVE ARTS/MUSIC

Fun activities and great after school projects by our dedicated Art teacher. For Nursery and K1 students, RSK offers music class by dedicated Music teacher.

RSKKIDS PROGRAMMES & EVENTS

RSK organize lots of programmes & events for RSK kids. These includes sports, field trips, yearly school concerts and variety of internal programmes such as Bestari Solat, Reading Camp, Plant A Tree, Merdeka Project & many more.

Key Pointers – Ways of learning

CAPTIVATE

Si kecil learn best when they bet to participate and explore topics that are relevant to their interest. Stimulate all senses using multi- sensory learning tools that engages varied textures, colours, movements, sounds, shapes or sounds to sustain focus. Keep them motivated with hands-on activities such as songs, games, colourful animations and role-playing

REPEAT

By repeating words or concepts, si kecil get to practice, self-correct, master skills, strengthen understanding and retain knowledge. While repetition is important to si kecil's learning and development, it does not mean doing the exact same activity or going through the same story, over and over again. Instead, provide them with different opportunities to practice the same skill. For example, learning numbers through a song and learning how to count using beads.

ACHIEVE

Be it a beginner or intermediate learner, learning through playful and interactive experiences and repetition will help si kecil develop skills in all aspect of language ; reading, writing, listening, speaking, character recognition, pronunciation and vocabulary acquisition.

At Rskkids, we know that few years before a child goes to school is an exciting time developmentally, so it is important to choose preschool programme carefully. Our structured programs offer long day hours giving your family greater flexibility and convenience if and when it's needed. Rskkids have qualified Early Childhood teachers that receive ongoing, up-to date training and professional support.

We are confident that our teachers will provide tailored learning programs that nurture your si Kecil's individual needs and interest.

We look forward to initiating and establishing this essential rapport with you and hope that your association with us will be happy and fulfilling one.
