

## Our Vision

To be in the forefront of early childhood care and education

## Our Philosophy

All children are different and have potential in different areas. By recognising and appreciating this, we can nurture children to bring out their best

## Our Mission

To provide the most supportive and conducive environment for the development of the whole child

- For security reasons, please inform the school if there are any changes in the person/ vehicle picking up the children

## Our Sunshine Integrated Programme

is dedicated to nurturing the full potential of children. The daily activities promote all aspects of development in early childhood education.

### Approach to Learning

- Sunshine combines informal and formal approaches to learning.
- The children learn through play and hands-on activities, using everyday objects found in their environment.
- More formal activities prepare the children for the school system that they will go on to later.
- English will be the main medium of instruction and communication. The children will also have lessons in Bahasa Malaysia.

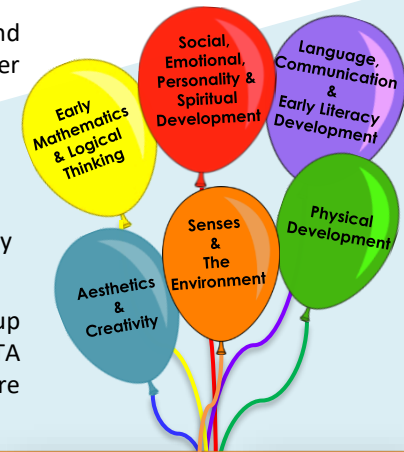

### Learning Materials

We have developed our own books and computer games, based on themes, that cover all the subject areas.

The books are in levels for the different age groups. The kindergarten (Tadika) materials follow the current Malaysian Pre-School Curriculum as set out by the Malaysian Ministry of Education.

The baby and toddler care, and playgroup (TASKA) activities follows the National PERMATA Curriculum as set out by the Social Welfare Department Malaysia.
